To Whom It May Concern:

I am pleased to write in support of Michael Linert. Mr. Linert was a full time substitute teacher for our performing arts department at Lawrence Central High School in the fall of 2013. He replaced our orchestra teacher on a maternity leave. He was responsible for conducting all rehearsals, preparing concert material, teaching a piano class and administering all activities relative to our highly regarded orchestra program.

Michael is an exceptional musician, and a true professional. He connects extremely well with students, and our students were very sorry to see him leave after first semester. His rehearsals were well structured and students were on task throughout the 92 minute block.

Mr. Linert is a versatile performer and teacher. His experience as both a vocalist and a string artist make him a great find for someone looking for a well-rounded music educator and performer.

I believe Michael will be successful with whatever he chooses to focus on and I look forward to seeing the great things he does in his musical career. I highly recommend him for any position that requires a strong educator, performer and musical leader.

Sincerely,

Randy W. Greenwell

Chairman, Performing Arts Department

Lawrence Central High School
